

HERMANN

a film by Hana Geissendorfer

„Hermann“

Short Synopsis:

Hermann is 67 years old and lonely. He does have Gloria – but she is only a budgie. He distracts himself from his solitude with his love for ornithology and rigidly structured days, yet he is still full of desire. Then he meets Jörg. With Jörg, Hermann's hopes are raised that he may no longer have to be lonesome. However things are not as easy as they first seem, especially with Gloria standing in his way.
